NICORICI IOAN

RPA & Automation Developer | Applied Electronics Student

Bucharest, Romania | +40 734 710 845 | ioannes.nicorici@gmail.com | linkedin.com/in/nicorici-ioan | github.com/nicorizz04

PROFESSIONAL SUMMARY

Fourth-year Applied Electronics student at Politehnica University of Bucharest with hands-on RPA experience using UiPath. Built end-to-end automations involving Document Understanding, Generative AI extraction, Orchestrator queues, and REFramework during a full-time RPA Trainee role at Sphinx IT.RO. Strong foundation in Python, embedded systems, and software development.

EXPERIENCE

Intern | Sphinx IT.RO - Remote (Timișoara) Oct 2026 – Present

- Developing enterprise automation solutions in UiPath Studio with a focus on ERP integration and Excel data workflows.
- Researching and prototyping Agentic Automation and UiPath Autopilot to generate dynamic, end-to-end automations.

RPA Trainee | Sphinx IT.RO - Hybrid (Timișoara) Jun 2026 – Aug 2026

- Engineered production RPA and agentic automations in UiPath Studio and Orchestrator, automating live business processes end-to-end.
- Built an Intelligent Admission Platform (Dispatcher + Performer): Document Understanding with OCR/GenAI extraction, configurable thresholds, 0-100 Match Score, HTML reports, automated emails, and a KPI dashboard.
- Implemented a Sales Data Aggregator automating multi-file Excel validation and centralization into Pivot Tables and charts; worked with SQL, queues, exception handling, and logging.

Programming Trainer | Logiscool Ltd. - On-site, Bucharest Jan 2025 – Jun 2025

- Taught Python and Scratch to children, focusing on problem-solving, logic, and creativity; developed and adapted materials across age groups.

SELECTED PROJECTS

Intelligent Admission Platform - UiPath, Sphinx IT Practice

- Dispatcher + Performer for automated document review, GenAI extraction, Match Score, and KPI dashboard (see Experience above).

AI Labs - Full ML Workflow | Python (github.com/nicorizz04/AI-Labs)

- End-to-end ML pipeline: Pandas/Matplotlib analysis, supervised and unsupervised models, neural networks with PyTorch, multi-modal processing.

Flight Analysis | Python (github.com/nicorizz04/flight_analysis)

- Automated system forecasting flight delay risk across European routes; Pandas pipeline, Logistic Regression model, Streamlit KPI dashboard.

Real Estate App | Python (github.com/nicorizz04/real_estate)

- End-to-end system from web scraping (Selenium/BeautifulSoup) to price prediction (Linear Regression) with an interactive Streamlit dashboard.

EDUCATION

Bachelor's Degree, Applied Electronics | Politehnica University of Bucharest (ETTI) 2023 – 2027

Baccalaureate Diploma, Mathematics & Informatics | Traian Vuia High School, Făget 2019 – 2023

SKILLS

RPA & Automation: UiPath Studio, Orchestrator, REFramework, Document Understanding, Generative Extraction, Queues, Excel Automation
Programming: Python, C/C++, C#, VB.NET, MATLAB, SQL, JavaScript, HTML/CSS, Verilog
Electronics & Embedded: Arduino, ESP-32, Microcontrollers, Digital Logic, SPICE, Cadence Spectre
Data & ML: Pandas, NumPy, Scikit-learn, PyTorch, Matplotlib, Streamlit
Tools & Languages: Git, MS Office, Firebase/Supabase, Tailwind CSS | Romanian (Native), English (Advanced), French (Beginner)

CERTIFICATIONS

- UiPath Academy: Automation Developer Professional, Associate, Specialized AI Associate, Software Test Engineer, Desktop Automation Citizen Developer (2026)
- Python 101 (Cisco/Hackademy @ UPB); Python for Data Science & ML (Cognitive Class); Foundational C# (freeCodeCamp); Data Engineering on AWS – Foundations; Leaders Explore Program
